

ASWIN ANILKUMAR

Software Engineer | MERN Stack | Full Stack Web Development

+91 7356450725 | aswinanilkumar.hex@gmail.com | Vaikom, Kottayam, Kerala 686143

[Portfolio](#) | [LinkedIn](#)

PROFESSIONAL SUMMARY

Software Engineer with 3+ years of full stack experience building scalable web applications across CRM, ERP, HRM, and Healthcare domains. Proficient in the MERN stack with exposure to Laravel and .NET ecosystems. Skilled in modular frontend architecture, RESTful API development, and delivering production-grade platforms. Focused on building performant, maintainable, and scalable web systems.

TECHNICAL SKILLS

Frontend Technologies: React.js, TypeScript, JavaScript (ES6+), HTML, CSS, Redux, Zustand
UI & Styling: Tailwind CSS, Material UI, Chakra UI, Bootstrap, React Bootstrap, Responsive Design
Backend & APIs: Node.js, Express.js, REST APIs, WebSockets, Webhook Integration
Databases: MongoDB, Mongoose, Firebase, Firestore
Authentication & Security: JWT, RBAC, OAuth, bcrypt, Secure Token Management
Tools & DevOps: Git, Bitbucket, JIRA, Postman, Swagger, CI/CD, GitHub Actions, Docker, Redis, NGINX
Testing: Jest, React Testing Library
IDEs & Editors: VS Code, Cursor, Claude AI
Security & Code Quality: SonarQube, OWASP ZAP, Burp Suite

WORK EXPERIENCE

Software Engineer

May 2024 – Present

Direct Axis Technology | UL Cyberpark, Kozhikode, Kerala

- Contributed to frontend architecture and led implementation of scalable CRM, ERP, and HRM platforms, reducing duplicate component logic by introducing reusable component patterns
- Contributed to architectural decisions including state management strategy, component design standards, and API integration patterns
- Built and consumed RESTful APIs via Node.js and Express.js, collaborating with backend teams; worked in a Dockerized environment using Docker, Redis, and NGINX
- Led pull request reviews, enforcing code quality standards across a team of 5+ developers in a Laravel & Inertia.js ecosystem
- Partnered with backend and product teams to review API contracts, ensuring seamless integration

Software Engineer

Jun 2023 – Apr 2024

Kaizen Star Technologies | Infopark, Kochi, Kerala

- Worked on full stack development for Medicoplus Hospital Management System covering patient management, billing, and consultation workflows
- Built and integrated REST APIs using Node.js and Express.js for patient records, billing, and insurance modules
- Collaborated with .NET (C#) backend services, integrating APIs into React-based frontend modules
- Improved application responsiveness by optimizing rendering logic, state management, and API data flow

Junior MERN Stack Developer

Nov 2022 – May 2023

Soften Technologies | Kochi, Kerala

- Developed full-stack web applications using MongoDB, Express.js, React.js, and Node.js stack
- Built reusable frontend components and integrated secure REST APIs with JWT authentication

KEY PROJECTS

Real-Time Chat Application

React (Vite), Node.js, Express, Socket.io, JWT, MongoDB

- Built full-stack real-time chat supporting concurrent users with low-latency delivery via WebSocket communication
- Implemented JWT authentication with RBAC and bcrypt password hashing
- Optimized state management and socket lifecycle handling, reducing memory leaks and unnecessary re-renders

Movie Mate – Ticket Booking Platform

React, Node.js, Express, MongoDB, Stripe

- Built user and admin modules with secure Stripe payment integration and webhook-based validation
- Implemented Redux-based cart management with lazy loading optimization

EDUCATION

Bachelor of Science in Physics

Jun 2019 – Apr 2022

Sreenarayana Arts & Science College, MG University

MERN Stack Certification

May 2022 – Oct 2022

Soften Technologies
